

ABU UBAID H

JUNIOR FULL STACK DEVELOPER (MERN / PERN STACK)

Dubai, UAE

☎ +971 583037174 ✉ abuubaid.hilar@gmail.com 💼 [linkedin.com/in/aabu-ubaid](https://www.linkedin.com/in/aabu-ubaid) 🐙 github.com/AabuUbaid

Professional Summary

Results-driven Full Stack Developer (MERN/PERN stack) based in Dubai, with proven experience building scalable, end-to-end web applications. Proficient in architecting robust backend systems with Node.js and Express, designing RESTful APIs, and managing relational and NoSQL databases (PostgreSQL, MongoDB). Skilled in developing responsive, dynamic user interfaces using React.js. Adept at independent problem-solving and delivering production-ready software. Seeking to leverage full-stack engineering skills in a fast-paced technical environment.

Education

Bir Tikendrajit University

Completed 2025

B.Tech in Computer Science and Engineering (Results Awaiting)

Imphal, Manipur

- Transferred credits from Nehru Institute of Technology; completed coursework while building industry-ready full-stack projects.

Nehru Institute of Technology

2020 – 2023

B.E in Computer Science and Engineering

Coimbatore, Tamil Nadu

- Completed coursework in Data Structures, Algorithms, Database Management Systems, and Software Engineering.

Projects

Nexus Lease & Asset Management System | *React.js, Node.js, Express, PostgreSQL*

- Architected an enterprise-grade full-stack lease management application to automate tenant tracking and rental agreement lifecycles.
- Developed complex relational database schemas in PostgreSQL to efficiently handle multi-tenant property data and payment scheduling.
- Engineered a secure administrative dashboard using React.js for real-time monitoring of asset occupancy and financial reporting.
- Designed and integrated robust RESTful APIs with secure authentication to manage multi-user access and sensitive leasing data.
- [GitHub Repository](#)

Tomato Food-Del App | *React.js, Node.js, Express, MongoDB, Stripe*

- Built a full-stack food delivery application with authentication, cart management, and order processing.
- Implemented JWT-based authentication and Stripe payment integration for secure transactions.
- Designed RESTful APIs and optimized MongoDB queries for performance and scalability.
- Deployed the application using production-ready build and environment configuration.
- [GitHub Repository](#)

Modern Todo App | *React.js, Node.js, PostgreSQL*

- Developed a full-stack task management application with JWT authentication and CRUD operations.
- Built a responsive React frontend and Node.js backend connected to PostgreSQL.
- Deployed both client and server on Render for public access.
- [GitHub Repository](#)

Technical Skills

Languages: JavaScript (ES6+), SQL

Frontend: React.js, HTML5, CSS3, Bootstrap

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: PostgreSQL, MongoDB, Firebase

Tools: Git, GitHub, Render

Concepts: Full-Stack Development, Responsive Design, API Integration, Deployment

Certifications & Achievements

freeCodeCamp — JavaScript Algorithms and Data Structures Certification (v8)

Udemy — Full Stack Web Developer Certification

GreatStack — Full Stack Food Delivery Project Certification
