Professional Summary

Self-taught Junior Full Stack Developer with practical experience building end-to-end web applications using React.js, Node.js, Express, PostgreSQL, and MongoDB. Strong understanding of frontend-backend integration, REST APIs, authentication, and deployment workflows. Proven ability to independently deliver full-stack projects while balancing full-time responsibilities. Seeking a junior full-stack role to contribute across the stack and grow through real-world product development.

Education

Bir Tikendrajit University

2023 – Present

B.Tech in Computer Science and Engineering (Final Year)

Imphal, Manipur

- Transferred credits from Nehru Institute of Technology; currently completing final year while building industry-ready full-stack projects.

Nehru Institute of Technology

2020 – 2023

B.E in Computer Science and Engineering

Coimbatore, Tamil Nadu

- Completed coursework in Data Structures, Algorithms, Database Management Systems, and Software Engineering.

Projects

Tomato Food-Del App | *React.js, Node.js, Express, MongoDB, Stripe*

- Built a full-stack food delivery application with authentication, cart management, and order processing.
- Implemented JWT-based authentication and Stripe payment integration for secure transactions.
- Designed RESTful APIs and optimized MongoDB queries for performance and scalability.
- Deployed the application using production-ready build and environment configuration.
- [GitHub Repository](#)

Modern Todo App | *React.js, Node.js, PostgreSQL*

- Developed a full-stack task management application with JWT authentication and CRUD operations.
- Built a responsive React frontend and Node.js backend connected to PostgreSQL.
- Deployed both client and server on Render for public access.
- [GitHub Repository](#)

Chat Application | *React.js, Firebase, Firestore*

- Built a real-time chat application using Firebase Authentication and Firestore.
- Implemented live message synchronization with clean and intuitive UI.
- [GitHub Repository](#)
- [Live Demo](#)

Astro Shooter Game | *JavaScript, HTML, CSS*

- Developed a 2D browser-based game using JavaScript and HTML Canvas.
- Implemented collision detection, movement logic, and performance optimization.
- [GitHub Repository](#)
- [Live Demo](#)

Technical Skills

Languages: JavaScript (ES6+), SQL

Frontend: React.js, HTML5, CSS3, Bootstrap

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: PostgreSQL, MongoDB, Firebase

Tools: Git, GitHub, Render

Concepts: Full-Stack Development, Responsive Design, API Integration, Deployment

Certifications & Achievements

freeCodeCamp — JavaScript Algorithms and Data Structures Certification (v8)

Udemy — Full Stack Web Developer Certification

GreatStack — Full Stack Food Delivery Project Certification
